Blanket Wash Type F

Technical Sheet

★ **Cleans quickly reducing downtime.**

Blanket Wash Type F gives faster superior cleaning.

★ **Easily removed with water.**

Blanket Wash Type F can be washed off with water.

Special Qualities

Plus Factors

Effects

Can be used with all types of inks and stocks.

More flexible choice of products.

Wider variety gives more options to be cost effective.

Compatible with all presses.

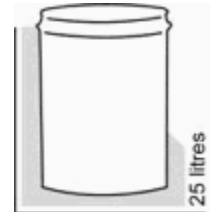

Clean start up at slow speed.

Increases production.
Less waste.
More profits.

Application

For efficient use mix 50/50 with water before use. Can be applied by hand or placed into automatic washup machines.

Usage

Especially useful on heavily linted blankets. Not to be used on heatset ink presses. (See Autowash 70 for these applications)
